Tallahassee, Florida

LETTER OF TRANSMITTAL

March 1, 1960

To His Excellency,  
LeRoy Collins,  
Governor of Florida

Dear Sir:

In accordance with the provisions of the Statutes, we transmit herewith the report of the Railroad and Public Utilities Commission of the State of Florida for the calendar year 1958.

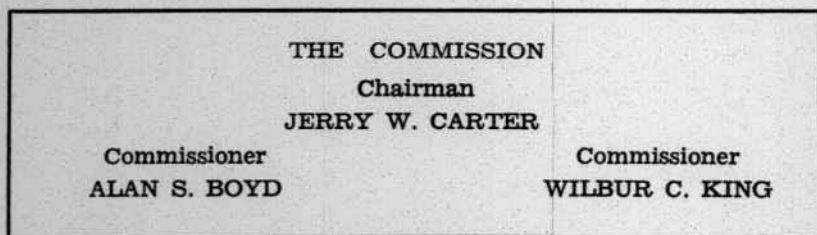

Respectfully submitted,

JERRY W. CARTER, Chairman

ALAN S. BOYD, Commissioner

WILBUR C. KING, Commissioner

BOLLING C. STANLEY,  
Executive Secretary.

ADMINISTRATIVE ASSISTANT  
M. L. Fawbush

EXECUTIVE SECRETARY  
Bolling C. Stanley

## NATURE AND SCOPE OF OPERATIONS

The Railroad and Public Utilities Commission and its operations are legally authorized by Article V, Section 35, Florida Constitution, and Chapters 317, 320, 323, 347, 350, 352, 360, 364, 365 and 366 of the Florida Statutes.

The Commission's function is to insure adequate and safe standards of service and fair and reasonable rates for such service to the public who use the commodity or service of the following classes of privately owned economic enterprises within the State of Florida:

Motor transportation companies including bus and truck common carriers, contract carriers, permit carriers, transportation brokers, and taxi-cabs, excluding exclusively intra-urban operations.

Railroad common carriers including express and pullman companies.

Passenger and freight terminal facilities of the above.

Ferries, toll bridges and canal companies.

Private wire service.

Electric and manufactured gas utilities.

Telephone and telegraph companies.

In performing the above function, the Commission conducts public hearings with delegated power to enforce resulting decisions, promulgates rules and regulations applicable to the economic activity under regulation, polices highways to prevent unlawful motor transportation operations, conducts safety checks of vehicles operating on highways, issues certificates of public convenience and necessity and permits to auto transportation and telephone companies when established requirements are met, issues franchises for operation of toll bridges and ferries, inspects and investigates utility and carrier operations and facilities to insure compliance with Commission rules and standards, and analyzes applications for security issues and self insurance. The Commission also functions to protect or further the interests of Florida before Federal Regulatory Agencies in matters affecting major segments of the population or economy of the state.

Most utilities regulated by the Commission are required to file formal reports regarding their operations at the end of the year. At the close of 1958, the following types and number of utilities filed such reports:

Electric Companies .....	3
Electric & Gas Companies .....	2
Gas Companies .....	7
Class "A" Railroads .....	7
Class "C" Railroads .....	9
Florida Bridge Company .....	1
Pullman Company .....	1
Western Union .....	1

Gasparilla Ferry Company .....	1
Kinzie Brothers Steamer Line .....	1
Class "A" & "B" Telephone Companies .....	14
Class "D" Telephone Companies .....	5
Class I Transportation Companies of Passenger .....	7
Class I Transportation Companies of Freight .....	8
Class I Transportation Companies of Passenger & Freight .....	1
Class II Transportation Companies of Passenger .....	18
Class II Transportation Companies of Freight .....	9
<b>TOTAL</b> .....	<b>96</b>

### MAJOR EVENTS DURING 1958

During 1958, Tampa Electric Company petitioned the commission for a 7% rate of return on a proposed rate base of \$100,251,238 or an increase in operating income of \$1,655,346. The commission, after a public hearing and consideration of the record, awarded this utility a rate of return of 6.74% on a year end rate base of \$97,145,138. This return after consideration of all factors resulted in a net increase in the utility's operating income of \$765,300 or \$890,046 less than the utility petitioned for. The commission by its order also equalized certain rates in the area served by Tampa Electric Company and established a new fuel clause adjustment which would give consideration to both generating efficiency and line losses as well as the actual cost of fuel.

The electric utility subsequently petitioned the commission for reconsideration of the order and at the close of 1958 a final order in the matter was still pending.

On March 7, 1958, Southeastern Telephone Company, a telephone company serving a portion of northeastern Florida including Tallahassee, filed with the commission an application to increase its intrastate rates and charges. The majority of the commission granted the utilities request in May putting the increased rates in effect under \$50,000 bond pending a formal hearing on the matter. Some three weeks later, the commission by a majority vote, revoked the temporary increase and directed the telephone utility to refund the monies it had collected while the temporary rates were in effect. As a result of this order of the commission, the telephone company sought and obtained an injunction from the circuit court of Leon County enjoining the commission from enforcing its order revoking the temporary rate increase and requiring a refund. The commission and other parties in the case appealed the decision of the circuit court to the District Court of Appeals, First District, which subsequently reversed the circuit court, thus upholding the commission's second order revoking the temporary rate increase.

The telephone utility filed with the court of appeals a petition for rehearing which was denied. Whether the Southeastern Telephone Com-

pany would exercise its right to appeal to the Supreme Court was not determined by the close of 1958. The commission in the meantime, however, had completed a public hearing on the application and final decision was pending further court litigation.

Also in 1958, the Florida Intrastate Rate Bureau on behalf of certain common carrier motor freight lines applied to the commission for a ten per cent increase in minimum and all other less-than-truckload rates and charges. After extensive hearings, the commission concluded in its order of October 29, 1958 that the common carrier truck lines involved had failed to prove that they were entitled to the increase applied for and, therefore, the application was denied in toto.

An investigation of the adequacy, efficiency and sufficiency of the telephone service as rendered by the Southeastern Telephone Company to its customers in northeast Florida was conducted during the year. All parties desiring to be heard were invited to public hearings in Tallahassee and Ft. Walton Beach.

In 1958, initial studies began of the service rendered by the truck common carriers of freight in Florida. This later developed into a full scale investigation on a State wide level.

Other actions of great importance but too numerous to mention specifically in this report were performed by the commission during the year.

## Office of the Executive Secretary

The Executive Secretary is the chief administrative officer of the Commission and as such directs the handling of all official formal applications and cases and records official commission action. In addition, the Executive Secretary answers numerous inquiries relating to commission affairs, approves purchases, and maintains official files.

During the year 1958, the Executive Secretary's office set 175 cases for public hearing before the Commissioners or Commission Examiners in all parts of the state. A number of these cases required continued hearings.

The Executive Secretary received and docketed 312 new applications and petitions from railroads and utilities under commission jurisdiction during the year and issued 572 formal orders. 317 of these orders related to motor transportation and 155 to telephone companies, railroads, Western Union, etc.

The total amount of all fees payable to the Commission and deposited with the State Treasurer in 1958 was \$105,687.64. Table I shows the type and amount of fees collected.

**TABLE I**  
**FEES COLLECTED AND DEPOSITED WITH STATE TREASURER**

Fines.....	1,750.00
Auto Transportation Brokers Licenses.....	19,150.00
	<b>\$105,687.64</b>

## Finance Department

This department is vested with the responsibility of participating in all public hearings and formal conferences pertaining to rates, fares and charges, and informal conferences pertaining to financial and accounting matters of the various utilities under the jurisdiction of the commission. Approximately one hundred and fifty annual reports are submitted to this department each year. These reports are audited in detail and are subsequently amended or corrected by the utilities where necessary before final acceptance.

On such occasions where the commission deems that it is advisable to intervene in interstate affairs in the interest of Florida, this department attends hearings or conferences held before the Federal agency involved. The responsibility of this department in rate proceedings, whether before the Florida Commission or a Federal Commission, is to examine all testimony and related exhibits, compile data to be used for cross examination, and prepare exhibits and testimony to be introduced by members of the department as witnesses at the hearings.

Field audits are imperative to the efficient conduct of the department's affairs. At present the field audit division is comprised of a complement of four auditors; one located in the Miami area, one in the Jacksonville area and two in the Tampa-Orlando area. In addition auditors in Tallahassee conduct the field audits in northwest Florida. With the limited staff, field audits, at present, are only conducted in the larger utilities. Reports are filed quarterly and from these reports the commission is informed of the earnings of the utilities. Special audits are made prior to rate cases and frequently the results are compiled in staff exhibits and testified to by the field auditors.

During the year the staff of the Finance Department conducted fuel clause adjustment studies of the Florida electric and gas companies. Fuel clauses are based on an index price which is established on a lease price of a barrel of oil or its equivalent or in the terms of fuel to generate one K.W.H. of electricity. If the fuel price moves up or down, the rates to the consumer are adjusted proportionately. At a result of the fuel adjustment studies, in two recent rate proceedings, the fuel adjustment clauses in the rate tariffs were amended to comprehend improved efficiency of generation and transmission at a considerable saving to the consumer. Studies were also conducted on cost of capital which is an important segment in ascertaining the earning requirements of utilities. Evaluations of the rate processes of other state commissions and court decisions are observed to keep the Florida Commission abreast of the latest developments in rate procedure.

All fiscal records of the commission were maintained in this Department, and the budget for the biennium 1959-61 as well as annual and

quarterly budgets were prepared by this Department.

The Finance Department participated in the following rate proceedings in 1958:

Docket No. 5274-EU—Tampa Electric Company

Docket No. 5364-TP—Southeastern Telephone Company

Docket No. 5371-TP—North Florida Telephone Company

Docket No. 5381-CCB—Greyhound Corporation (Southeastern Greyhound Lines Division), et al

Docket No. 5392-TP—Starke Telephone Company

Docket No. 5420-CCT—Florida Intrastate Rate Bureau, Central Truck Lines, Inc., et al

Docket No. 5499-TG—Western Union Telegraph Company.

Docket No. 5509-TP—General Telephone Company of Florida

Operating statistics of utilities under Commission jurisdiction are included in the Statistical Section of this report.

## Legal Department

The Legal Department of the commission participates in public hearings, draws all orders pertaining to the decisions of the commission, prepares legal opinions and recommendations, serves as examiner in many public hearings, represents the commission before federal regulatory agencies and state and federal courts, and performs such other functions as may be assigned to it, from time to time, by the commission.

The following is a digest of decisions from the Supreme Court of Florida which affect the commission, and which were handled by the Legal Department during the year 1958:

### COURT CASES

#### **ATLANTIC COAST LINE R. R. CO. v. BOYD, 102 So. 2d 709.**

Decided May 7, 1958, rehearing denied June 6, 1958.

In this case the Supreme Court reversed an order of the commission and held that the Statute, Sec. 323.29, Florida Statutes, which provides that there shall be exempted from provisions of the law dealing with auto transportation companies, and from commission jurisdiction and control motor vehicles while engaged exclusively in transporting "goods, wares, merchandise, horticultural, agricultural" or logs, lumber or other forest products, fish, oysters and shrimp, and dairy products, from certain points should be construed as though the words "horticultural, agricultural" precede the words "goods, wares, merchandise," and that the Statutes exclude from commission jurisdiction the transportation of dolomite, but not sand, phosphatic sand, clay, and crushed rock.

#### **LEONARD BROS. TRANSFER AND STORAGE CO., INC., et al, v.**

**BOYD, et al, 104 So. 2d 489. Decided February 12, 1958, rehearing granted July 30, 1958 to correct minor errors in the opinion.**

The commission's order in this case was reversed by the Supreme Court based on the holding that while the commission has jurisdiction to originally impose restrictions as to area of operations of an auto transportation company, the commission cannot later eliminate such restrictions without a hearing and proof that public convenience and necessity require the broadening of the provisions of the certificate and the extension of service to be rendered thereunder.

#### **STATE EX REL FLORIDA RAILROAD AND PUBLIC UTILITIES**

**COMMISSION, et al, v. HUGH M. TAYLOR, etc. Decided by District Court of Appeal, First District July 28, 1958, rehearing denied September 12, 1958, 104 So. 2d 745**

This is an original prohibition proceeding brought by the State of Florida on relation of the Commission, the City of Tallahassee, and several other cities, based on the contention that Circuit Judge Taylor lacked jurisdiction to enter an injunction restraining the commission from enforcing its order which vacated a temporary increase in telephone rates, previously granted by the commission to Southeastern Telephone Company. In denying the writ, the Court of Appeal held that the allegations in the suggestions for writ of prohibition failed to state a *prima facie* case because of the failure to show that the Circuit Judge lacked jurisdiction of the suit or that he exceeded his jurisdiction by his actions in said suit. The Court pointed out that the remedy for the correction of errors made by the lower court in the exercise of its jurisdiction is by appeal, or petition for writ of certiorari to a higher court as may be provided for in the applicable statute's constitutional provisions or rules.

**BOYD, et al v. SOUTHEASTERN TELEPHONE COMPANY**, 105 So. 2d 889. Decided by the District Court of Appeal, First District October 28, 1958, rehearing denied November 14, 1958.

This is an appeal by the Commission, the City of Tallahassee, and others from the Circuit Court of Leon County, and involves the same injunction order which was under attack in the prohibition proceeding above referred to. In this case the District Court of Appeal reversed the Circuit Judge and held that the commission has power on its own motion, or on request, to correct or amend an order still under its control without notice and hearing to interested parties. The Court also held in this case that the withholding by the commission of permission temporarily to increase rates charged by a telephone company, pending administrative process contemplated by law, cannot be considered as a confiscation of the telephone company's property in violation of its constitutional rights.

**CENTRAL TRUCK LINES, et al v. BOYD et al**, 106 So. 2d 547 Decided by the Supreme Court November 21, 1958.

The commission's order under attack in this case granted Railway Express Agency a certificate of public convenience and necessity as a matter of right and without a public hearing under the provisions of Sec. 323.26, Florida Statutes. Several months after the commission's order was issued, interested truck lines filed a petition with the commission to reopen said proceedings and vacate the order in question. The Supreme Court held that the order actually under attack was the one which granted the certificate more than eight months prior to the date on which the petition for certiorari was filed with the Supreme Court, and that as a result the Supreme Court did not have jurisdiction under applicable rules and statutes requiring such petitions to be filed within sixty days after entry of the order in question.

**STATE OF FLORIDA ex rel FLORIDA RAILROAD AND PUBLIC UTILITIES COMMISSION, etc v. JOHN H. INGALLS**, 106 So. 2d 570. Decided by District Court of Appeal, Second District, October 29, 1958, rehearing denied December 11, 1958.

The basic holding in this case by the District Court of Appeal is that motor carrier operations must be bona fide and conducted in good faith without a shadow of subterfuge or attempted evasion of the letter or obligation of the law requiring certificates of public convenience and necessity by common carriers and that any plan or scheme whether by purported lease, agency, or other device disguising the true nature of the transportation, will be of no avail for that purpose.

In the following cases, Commission orders were affirmed by the Supreme Court, but without an opinion:

Florida Transportation Company v. King, 101 So. 2d 153  
Liquids Transport Company v. King, 101 So. 2d 814  
Rasdale Armored Car Service v. Boyd, 101 So. 2d 817  
Red Top Sedan Service, Inc., v. King, 101 So. 2d 154  
Seaboard Air Line R. R. Co. v. Boyd, 101 So. 2d 153  
Teague v. King, 101 So. 2d 152

## Engineering Department

The Engineering Department maintains current tariff files on all regulated electric and gas utilities, telephone and telegraph companies and is further assigned responsibility for rate, service and safety matters in connection with the regulation of such utilities. In the performance of its duties the departmental staff makes periodic inspections to insure the utilities are providing safe and adequate service, investigates complaints, makes analyses of tariff filings and rate changes, assists in the preparation of commission service standards and participates in the various proceedings before the commission.

### GENERAL

The phenomenal growth in population experienced in recent years continues unabated and this circumstance, together with substantial increases in the overall economy of the State, presents to the several utilities a constant challenge to meet the ever-increasing demands for utility service of all types. Despite the attainment of new peaks in utility expansion programs the plateau is not yet in sight and projected construction budgets continue at high levels, particularly in the telephone and electric utility industry.

### NUMBER OF UTILITIES

Under applicable statutes this commission is vested with regulatory authority over investor-owned electric and gas utilities (excluding REA cooperatives and LPG companies), telephone and telegraph companies. The number of regulated utilities at year end was substantially the same as the previous year and are listed, by types, in the following tabulation:

	Dec. 31, 1957	Dec. 31, 1958
Electric.....	5	5
Gas.....	8	7
Telephone.....	22	22
Telegraph.....	1	1
Less Duplications.....	2	1
	34	34

### TARIFF PROCEEDINGS

During the year there were 226 decisions issued which required investigation and/or analysis by the staff. This total encompasses both formal and informal proceedings submitted for commission action and

includes tariff revisions, certificate matters, rate proceedings, formal complaints and utility financing. The following tabulation indicates the number and type of decisions issued for each class of utility:

	Electric	Gas	Telephone and Telegraph	Total
Amend Certificate.....			10	10
Financing.....	12	6		18
Formal Complaints.....			4	4
Rates.....	1		11	12
Tariff Revisions.....	9	9	164	182
Totals.....	22	15	189	226

### INFORMAL COMPLAINTS

Customers taking service from utilities operating under the jurisdiction of the commission may and do file informal complaints in the event of dissatisfaction with such service.

These complaints usually involve matters relating to such items as rates and charges, billing practices, tariff provisions, conditions of service, measurement of service and extension of service facilities. These matters are usually handled on an informal basis through investigation and/or analysis by the Engineering Department. After investigation of the factors involved a recommendation is issued to the parties concerned for an equitable disposition of the complaint. If the informal procedure fails to provide a solution, either party may petition the commission for formal proceeding. During the year the department received, investigated and processed such complaints as set out in the following tabulation:

Electric .....	113
Gas .....	22
Telephone & Telegraph .....	522
Miscellaneous .....	69
Total .....	726

### UTILITY PLANT

The investment of regulated electric, gas and telephone utilities in plant and facilities used and useful in serving the public for the years 1950 through 1958 is shown in the following table. This growth has been occasioned not only by the substantial increases in population but also from increased average customers usage. The heavy construction outlays, which over the past 7 years average in excess of \$286,000,000 per year, provide ample testimony to the progress of the economic development of our State.

(Thousands of Dollars)

End of Year	Electric	Gas	Telephone*	Total
1950.....	**	**	1,095,984	1,095,984
1951.....	363,985	35,468	1,208,324	1,607,777
1952.....	426,098	35,835	1,348,672	1,810,605
1953.....	498,505	37,059	1,494,752	2,030,316
1954.....	564,226	37,442	1,645,034	2,246,702
1955.....	636,900	37,879	1,827,447	2,502,226
1956.....	717,897	39,160	2,090,175	2,847,232
1957.....	842,840	40,357	2,375,952	3,259,149
1958.....	974,327	39,868	2,598,117	3,612,312

\* Includes Telegraph.

\*\* No jurisdiction prior to May 9, 1951.

### ELECTRIC SECTION

The growth of the State continues to be reflected in the growth of the five privately-owned electric utility companies under the jurisdiction of this commission.

The year-end reports of these companies indicated a cumulative growth record as follows:

	Amount Dec. 31, 1958	Percent Increase Over 1957
Utility Plant, Gross.....	\$974,327,392	15.60
Generating Capacity*.....	2,736,459 KW	40.77
Customers.....	1,135,392	7.39

\* This figure incorporates a modification of machine capacity designation and the retirement from service of 46,986 KW in antiquated machinery.

Inspections by this commission resulted in the retirement of 46,986 KW in antiquated steam and diesel generating equipment this year. For their last full year of operation, the 1957 Annual Report recorded the gross cost of this utility plant as \$1,930,970. This figure, depreciated, would be removed from the rate base and an operating expense of \$90,024 would be eliminated.

### GAS SECTION

At the end of the calendar year this commission exercised jurisdiction over 7 gas public utilities which, through 12 operating divisions, was providing service to some 129,000 customers in 38 incorporated and contiguous areas. Substantial changes may be expected in the gas utility industry with the advent of natural gas.

There were two major changes in the regulated gas industry during the year. The first of these was a merger of two of the larger utilities, viz: the Peoples Water and Gas Company and the Tampa Gas Company, into the Peoples Gas System, Inc., which will henceforth be operated as the East Coast Division and the West Coast Division respectively. The second major change saw the acquisition by the Houston Corporation of the gas properties of the Florida Power & Light Company at Daytona Beach, Lakeland and Miami, the Orlando division of the South Atlantic Gas Company, and the Triangle Gas Company operating in Eustis, Mt. Dora and Umatilla.

Substantial strides toward the introduction of natural gas in Florida were made during the year. Armed with a Certificate authorized by FPC Opinion No. 301, the Houston Texas Gas and Oil Corporation completed arrangements for financing on August 29th and actual construction started approximately two weeks later. By year end the construction program was well under way with initial deliveries tentatively scheduled on or about June 1, 1959.

### TELEPHONE SECTION

The unabated expansion of Florida's population and overall economy during the past several years has resulted in continuing large demands for fast and reliable communication services. Despite construction programs which have reached record levels during the past two years there remained 10,024 unfilled applications for service held at year end as compared with 11,090 at Dec. 31, 1957. This held order total should be viewed in conjunction with the fact that there was an increase of 150,197 stations during this twelve-month period.

During the year 7 central offices, serving a total of 26,705 stations, were converted to dial operation. At year end telephone service was being provided through 196 exchanges of which there remained 7 offices, serving approximately 16,000 stations, yet to be converted to dial operation.

Under the provisions of Chapter 365, Florida Statutes, the commission, in conjunction with the office of the Attorney General, received, investigated and processed approximately 140 applications for private wire service.

# Transportation Department

The Transportation Department is charged with the duty of enforcing the statutes and rules relating to intrastate motor and rail transportation in Florida. Since most of the enforcement activity is performed in the field, this department maintains field offices in Miami, Jacksonville, Winter Park, Tampa, and Pensacola.

All commission investigators and supervisors have the power of deputy sheriffs at large and in the course of their work made 744 arrests and issued 796 citations during 1958 for violation of the law or commission rules. Constant alertness by the enforcement personnel is vital for effective control of illegal motor carrier operations in the State.

The lack of uniform regulatory rules among and between the several states has been a handicap to effective regulation. The Director of the Transportation Department was very active during 1958 in affecting more uniform rules. Due to his interest and knowledge in this field, the Director was elected President of the newly formed National Conference of State Transportation Specialists. One of the major goals of this conference will be the establishment of more uniform regulation of motor transportation throughout the United States.

Under the commission's rule, all accidents involving personal injury, and all accidents involving property damage of \$100.00 or more shall be reported to the commission. Table III is a compilation of the accidents incurred by the three major types of motor transportation companies as reported to the commission.

**TABLE III**

Property Loss and Damage.....	\$29,165.57
<b>Passenger Carriers (Taxicabs)</b>	
No accidents reported in 1958.	

The commission employs one railroad inspector who performs periodic inspections of railroad equipment, right-of-way and station facilities to insure safety and sanitation for the traveling public. The inspector also analyzes all petitions for exemption from the commission's close clearance rules and reports his findings.

The following table indicates the inspection activities of the railroad inspector during 1958.

**TABLE IV**  
**NUMBER OF INSPECTIONS PERFORMED**

Air Brake.....	12
Freight Cars.....	1144
Passenger Cars.....	163
Locomotives.....	95
Freight Stations.....	198
Sanitary.....	171

In addition, the inspector conducted 44 separate investigations involving rail matters.

The railroads in Florida reported 178 accidents during the year in which 75 persons were killed and 90 persons injured. The property loss and damage caused by these accidents totaled \$706,503.26.

# **Tariff Department**

The Tariff Department maintains a tariff file consisting of approximately 600 freight and passenger fare tariffs applicable over railroads and motor vehicle transportation companies under the jurisdiction of the commission. It is delegated authority to conduct investigations and approve or disapprove informally revisions in these tariffs.

The department must be prepared to participate in formal hearings before this commission and the Interstate Commerce Commission covering rate matters that effect Florida carriers or shippers. Authority to pass judgment upon freight claims and act as arbitrator between the complainant and the carrier in the event they disagree is exercised by the department.

The Tariff Department maintains an informal docket file covering applications or complaints which after investigation are settled without a commission hearing. This is a special procedure under which cases can be handled without the formality of witnesses having to appear and give testimony in person.

During the calendar year of 1958 this department handled 151 railroad petitions informally. It also adjusted 82 motor vehicle rate cases on its informal docket.

A summary of the important cases handled were as follows:

## **RAILROAD, PASSENGER, EXPRESS CASES**

Fertilizer and Fertilizer Material intrastate in Florida consisted of 5 applications throughout the year.

Cement, CL, between points in Florida of which there were 4 major adjustments.

Containers, CL, Tin Cans, of which there were 8 individual cases.

Grain and Grain Products, consisting of 6 cases.

Petroleum and Petroleum Products, CL, 9 cases.

Paper and Paper Articles, CL, 3 cases.

Citrus Fruit Juices, CL, 3 cases.

Fresh Fruit, CL, 4 cases.

Sand, Gravel and Crushed Stone, CL, 9 cases.

Wood Chips, CL, 15 applications.

Lumber, CL, 7 cases.

Phosphate Rock, CL, 5 cases.

Iron and Steel, CL, 6 cases.

Clay and Fuller's Earth, CL, 5 cases.

### **MOTOR VEHICLE CASES**

Bus Fare Adjustments, 5 cases.

Truck-A-Way Automobiles, 3 cases.

Heavy Haulers Commodities consisted of 13 cases.

Petroleum and Petroleum Products, submitted 11 cases.

Pine Tar Oil, 8 cases.

Household Goods Adjustments, 11 cases.

Sulphuric Acid, 8 cases.

Paper and Paper Articles, 13 cases.

Malt Liquors, Ale and Beer, 2 cases.

Bakery Goods, 1 case.

Frozen Foods, 1 case.

The director of this department has been a member of the Special Grain Rate Committee since it was instituted before the Interstate Commerce Commission in Docket 31874 during the year 1954. I.C.C. Docket 31874 as of January 1, 1959, consisted of more than 1,000 exhibits and the record now stands in excess of 10,000 pages. It is hoped that formal order will be forthcoming from the I.C.C. sometime during the year 1959.

During each year there is received a considerable volume of miscellaneous correspondence having to do with various phases of transportation which has the effect of either increasing or decreasing service to the shipper. The Tariff Department acts as a clearing house for all of these. Numerous proposed rate adjustments reaching this department for handling are amended during the course of informal investigation. Other cases are withdrawn or abandoned. No detail record is kept of such matters. In the aggregate these represent about 30 per cent of the workload.
